

The organisations today are required to accelerate the delivery and innovation to stay competitive. It demands to embrace the right path to empower teams, deliver better and keep innovating. Our mission is to address the challenges of changing times, help accelerate delivery, and guide the industry to generate business value with continuous delivery by bringing the best knowledge and information from pioneers and leaders of DevOps and move in the direction to reinvent the organization. The need for 'Speed' is greater than ever. Our goal is to discover new ways of working, reimagining the structure, and reshape the talent to step up execution excellence. Join us at DevOps Summit to explore '**Innovation in DevOps**'.
